A DIVISION OF LEVITT SAFETY LTD.

For Immediate Release:

Friday November 4, 2011

NL Technologies Welcomes Rich Humber to the Team...

Toronto, Canada- NL Technologies, a leading provider of communication, productivity and safety systems for the mining industry, today announced Rich has joined the company as Channel Manager for Canada.

Rich has 25 years of experience in providing technology solutions. He was recently with Librestream, pioneers in wireless video conferencing for industrial environments. In the last year he worked very closely with NLT to bring this technology to the mining industry. Rich has worked for a number of industry leaders including managing channel sales at HP for 5 years.

“Rich will add a great deal of expertise in supporting our channel partners in Canada” says Heidi Levitt, President of NLT. “We are thrilled to have been able to add his skill set to our team”.

About NL Technologies

NL Technologies (NLT) has been designing and manufacturing equipment for the underground mining industry for over twenty five years with offices situated in Canada, Australia, Chile and distribution partners globally. In 2004, NLT leveraged its expertise to launch the Northern Light Digital™ division, which designs underground tracking and communications systems aimed at improving safety, efficiency and preventing mine emergencies.
